

Following is a list of activities and materials that are anticipated for the McGraw Park renovation. It is far from complete. The cost estimates shown for some items were obtained from vendor catalogs or informal quotes from local providers.

I have provided this list to help those interested in "in-kind" donations determine what is needed and how they might be of assistance. As you can see, there is something for everyone to help with.

If you are unable to help but know someone who might.....please forward for their consideration.

<b>Materials</b>	<b>Number of Units</b>	<b>Cost Per Unit</b>	<b>Total Estimated Cost</b>
